## Important things to note:

- We are 16<sup>th</sup> in the UK for Psychology Career Prospects (Guardian 2023).
- The course is accredited by the British Psychological Society (BPS) and, providing students achieve at least a 2:2 in their degree, they will be eligible for Graduate Membership of the BPS and the Graduate Basis for Chartered Membership (GBC), the first step to becoming a Chartered Psychologist.
- There is embedded employability within the programme from the 1<sup>st</sup> year.
- Opportunity to take part in work placements to build on skills, experience and enhancing career prospects. Placements are in a variety of sectors depending on interests and goals.
- There is an extensive range of optional modules in the 3<sup>rd</sup> year.
- We offer a high level of academic contact.

## What is this programme about?

- Expert scientific training in the relationship between the mind, brain, and behaviour.
- Study the psychological and neuro-scientific processes that underpin activities such as thinking, reasoning, memory, and language, learn about the effects of brain injury, and explore ways to improve health-related behaviour.
- Develop excellent research, written, and critical analysis skills, as well as a high degree of numeracy and ICT ability.
