1. Altomare, C., Favilla, M. & Macchia, L. 2004. Toxicity assessment of fungal biocontrol agents using the brine shrimp (*Artemia salina*) and *Daphnia magna* bioassays. RAFBCA, IBMA and IOBC workshop Brussels: New Insights into Risk Assessment and Registration of Fungal Biocontrol Agents in Europe. Brussels, 30th September 2004.
2. Boss, D., Maurhofer, M., Skrobek, A., Butt, T. M. & Défago, G. 2004. Novel methods to assess the toxicity of metabolites produced by the fungal biocontrol agent *Stagonospora convolvuli* LA39. Sixth-monthly meeting of the Swiss society for phytiatry, Grossdietwil, Switzerland, 23. September 2004.
3. Boss, D., Maurhofer, M., Skrobek, A., Butt, T. M. & Défago, G. 2004. Novel methods to assess the toxicity of metabolites produced by the fungal biocontrol agent *Stagonospora convolvuli* LA39. RAFBCA, IBMA and IOBC workshop Brussels: New Insights into Risk Assessment and Registration of Fungal Biocontrol Agents in Europe. Brussels, 30th September 2004.
4. Brückner, S. 2003. Evaluation of human health risks caused by the biological fungicide Contans ® WG. Proceeding of the Workshop on Occupational Health Risks of Producing and Handling Organisms for Biological Control of Pests in Agriculture, Copenhagen 27 Nov. 2003.
5. Calo', L., Rossi, M.P., Giliberti, L.A., Caiaffa, M.F., Tursi, A., Altomare, C. & Macchia, L. 2003. Cell-line based bioassays in risk assessment of mycotoxins released by fungal biological control agents. COST 835 Agriculturally Important Toxicogenic Fungi Workshop on "Mycotoxin and Food Safety: an Overview on Toxicogenic Fungi and Mycotoxins in Europe", Martina Franca, 25 October 2003.
6. Eberhart, K., Seger, C., Sturm, S., **Strasser, H.** & Stuppner, H. (2005) High yield isolation of destruxins A, B, D, E, and E-diol, the major depsipeptide derivatives of *Metarhizium anisopliae* by combining lipophilic Sephadex gel chromatography and HSCCC. International Congress and 53rd Annual Meeting of the Society for Medicinal Plant Research, 21-25 August 2005, Florenz.
7. Gallo, A., Favilla M., Mule' G. & Altomare C. 2003. Preliminary molecular characterization of trichodiene synthase gene in *Trichoderma harzianum*. 5th International Symposium In The Series "Recent Advances In Plant Biotechnology". Plant Biotechnology: Progress And Developments. September 7-13, 2003, Stara Lesna, High Tatras, Slovak Republic, p. 144.
8. Gallo, A., Mule' G., Favilla M. & Altomare C. 2004. Toxin genes in fungal BCAs: development of molecular tools for risk assessment. Isolation and characterization of a trichodiene synthase gene in *Trichoderma harzianum*. RAFBCA, IBMA and IOBC workshop Brussels: New Insights into Risk Assessment and Registration of Fungal Biocontrol Agents in Europe. Brussels, 30th September 2004.
9. Ghikas, D.V., Pantou M.P. & Typas, M.A. 2004. Differentiation of *Metarhizium anisopliae* and *Beauveria brongniartii* strains using mitochondrial molecular markers. Cost Action Meeting 842: Biological Control of Pest Insects and Mites with Special Interest to Entomophthorales. Cambridge, U.K., September 2004.
10. Griesser, U.J., Jetti, R.K.R., Wurst, K., Seger, C., Stuppner, H., Erlebach, D. & **Strasser, H.** (2005) Crystal structures of the fungal metabolite oosporein. 20th Congress of the International Union of Crystallography (IUCr), 31 August 2005, Florenz
11. Kirchmair, M., Rainer, R. & Strasser, H. 2003. Monitoring of airborne fungi by using MBASS30 at work places in biocontrol manufacturing plants. Conference on Occupational Health Risks of Producing and Handling Organisms for Biological Control of Pests in Agriculture at ami, Copenhagen, November 27th 2003, Abstract Book, 16.
12. Kirchmair, M., Huber, L. & Strasser, H. 2004. The impact of the fungal BCA *Metarhizium anisopliae* on soil fungi and animals. Fourth meeting of the *Melolontha* subgroup of the IOBC/WPRS working group "Entomopathogens and entomoparasitic nematodes"; New Grubs – New Challenges; 11th -13th October 2004, Innsbruck, Austria.
13. Kouvelis, V.N., Wang, C.S., Skrobek, A., Tavoularis, S.N., Butt, T.M. & Typas, M.A. 2004. Ames and Vitotox tests: an ideal combination to determine mutagenicity and genotoxicity. RAFBCA, IBMA and IOBC workshop Brussels: New Insights into Risk Assessment and Registration of Fungal Biocontrol Agents in Europe. Brussels, 30th September 2004.
14. Kouvelis, V.N., Tavoularis, S.N., Ghikas D.V., Pantou M.P. & Typas, M.A. 2004. Genetic fingerprinting of BCAs. Cost Action Meeting 842: Biological Control of Pest Insects and Mites with Special Interest to Entomophthorales. Cambridge, U.K., September 2004.

15. Kouvelis, V.N., Tavoularis, S.N., Pantou, M.P., Ghikas, D.V. & Typas, M.A. 2004. Genetic fingerprinting of BCAs. RAFBCA, IBMA and IOBC workshop Brussels: New Insights into Risk Assessment and Registration of Fungal Biocontrol Agents in Europe. Brussels, 30th September 2004.
16. Längle, T., Bauer, T., Steinmayr, W., Raffalt, J., Pernfuß, B., Seger, C. & Strasser H. 2004. State of the art GLP/GEP field-study for risk assessment of fungal biocontrol agents. RAFBCA, IBMA and IOBC workshop: New Insights into Risk Assessment and Registration of Fungal Biocontrol Agents in Europe. Brussels, 30th September 2004.
17. Längle, T., Pernfuß, B., Seger, C. & Strasser, H. 2004. Exploitation of the entomopathogenic fungus *Beauveria brongniartii* for the biological control of *Melolontha melolontha*. In Abstractbook: Minisymposium on microbial ecology: from ecosystem functioning to biotechnology application. 22 March 2004, Vienna, abstract book, p. 41.
